REMO C. DEL ROSARIO

rdelrosario053102@gmail.com | +63 912 500 0564 | Cabanatuan City | github.com/Remo-0031

SKILLS

Web Development Stack: React, Inertia.js, Laravel, Tailwind CSS (RILT), JavaScript, PHP, Node.js, CSS

Backend & Database: Laravel, Node.js, MySQL

Programming Languages: Java, Python, PHP, JavaScript

Machine Learning & Data: Scikit-learn, TensorFlow, Pandas, NumPy, Matplotlib

Tools: Git / GitHub / GitLab, Visual Studio, IntelliJ IDEA, Google Colab

EXPERIENCE

Eversun Software Corporation *August 2025 – Present*

Junior Full-Stack Web Developer (RILT Stack)

- Develop and maintain full-stack web applications using React, Inertia.js, Laravel, and Tailwind CSS.
- Resolve bugs and ship frontend features across production applications.
- Built an automated domain renewal system using scheduled cron jobs that detects domains expiring within 5 days and sends email notifications to users prior to renewal.
- Perform QA on features and bug fixes implemented by other developers to catch issues before deployment.

NOAH Business Applications *June 2024 – July 2024*

Quality Assurance Intern

- Tested features and products pre-release, identifying functional bugs and edge cases across web applications.
- Authored QA reports documenting bugs and improvement recommendations for the development team.
- Conducted UI/UX validation to confirm interface behavior and visual consistency matched design specifications.

PROJECTS

WebDev Event Management — *Node.js, QR Integration*

- Led backend development for a web-based event management platform with QR code check-in capabilities.
- Built server-side functionality supporting real-time event data sync and feature integration.

BookFacilitEase — *Java*

- Collaborated on a group-built facility booking and coordination application for organizational resources such as meeting rooms and equipment.
- Contributed to core scheduling and resource management logic within a team-based Java application.

WORDY — *Java, CORBA*

- Built a multiplayer word game in Java with real-time gameplay powered by CORBA for client-server communication.
- Implemented timed, competitive word-construction mechanics supporting multiple concurrent players.

EDUCATION

Saint Louis University *2021 – 2025*

Bachelor of Science in Computer Science — Magna Cum Laude, Dean's Lister (2021–2025)

Honorato C. Perez Sr. Memorial Science High School *2015 – 2021*

Secondary Education — Graduated with High Honors

CERTIFICATIONS

- Cyber Defense Society Conference — Trend Micro (March 2024, March 2025)
- Artificial Intelligence – Natural Language Processing Capacity Training Program — CHED-LAKAS (March 2024)
